# Standards for Accreditation

## Introduction

The New England Association of Schools and Colleges Commission on Public Schools requires member schools to demonstrate alignment with the Standards for Accreditation. The revised Standards for Accreditation, effective for all schools in 2020, are streamlined into five core Standards intended to promote an effective learning organization with the capacity to meet the needs of all students through continuous reflection and growth.

## Standards for Accreditation

Standard 1 <b>LEARNING CULTURE</b>	Learning Culture promotes shared values and responsibility for achieving the school's vision.
Standard 2 <b>STUDENT LEARNING</b>	Student Learning practices maximize the impact of learning for each student.
Standard 3 <b>PROFESSIONAL PRACTICES</b>	Professional Practices ensure that practices and structures are in place to support and improve student learning.
Standard 4 <b>LEARNING SUPPORT</b>	Learning Support ensures that the school has appropriate systems to support student learning and well-being.
Standard 5 <b>LEARNING RESOURCES</b>	Learning Resources ensure that the school has the resources necessary to meet the learning needs of all students.

## Principles of Effective Practice

Each Standard includes Principles of Effective Practice, which define the expectations for that Standard. Schools will be asked to reflect on and report their progress in aligning with the Principles for each Standard.

## Descriptors of Effective Practice

Descriptors of Effective Practice serve as examples of what each Principle looks like in practice in a school. Descriptors are guidance or benchmarks to assist schools in aligning with each Principle.

## Foundational Elements

At a minimum, Accredited schools must align with each of the Foundational Elements. The Foundational Elements represent essential building blocks for each Standard. Schools that are not yet aligned with the Foundational Elements are expected to prioritize work to ensure alignment with those Elements.

Standards for Accreditation	Foundational Elements
Standard 1 <b>LEARNING CULTURE</b>	<p>The school community provides a safe environment.</p> <p>The school has a written document describing its core values, beliefs about learning, and vision of the graduate.</p>
Standard 2 <b>STUDENT LEARNING</b>	There is a written curriculum in a consistent format for all courses in all departments across the school.
Standard 3 <b>PROFESSIONAL PRACTICES</b>	The school has a current school improvement/growth plan.
Standard 4 <b>LEARNING SUPPORT</b>	The school has intervention strategies designed to support learners.
Standard 5 <b>LEARNING RESOURCES</b>	The school site and plant support the delivery of curriculum, programs, and services.

## Standard 5: Learning Resources

The school has adequate and appropriate time, funding, and facilities to support the realization of its core values, beliefs about learning, and vision of the graduate. The school and school community provide time, funding, and facilities for student learning and support; teacher collaboration and professional growth; and full implementation of curricular and co-curricular programs in the school. The school has appropriate plans, protocols, and infrastructure in place to ensure consistent delivery of its curriculum, programs, and services.
